# Smart Solutions for the Digital Workplace

## Social intranet

Increase efficiency through interactivity and integration of back-office systems.

## Knowledge base

Work smarter with a Knowledge Base accessible through Social Intranet and App.

## E-learning

Knowledge transfer and testing for employees and others on your own online learning platform.

## Practice management

Manage contacts, dossiers & projects, including time & expense, billing & reporting.

## Teamwork App

Improve internal communication and knowledge sharing with this secure smartphone app.

## Employee & Customer portal

Reliable consistent communication with both internal and external groups.

## Main features

- **User management** (authorization and authentication) with import from Excel (csv) or Active Directory
- **Autonomous teams** per business unit, product group, innovation group, location, etc
- **File management** (documents, images, media, linked to network shares, Google drives or OneDrive)
- **Automatically generate photo presentations** directly from the file manager
- **Searching and finding** various content types, organized by type, also searching within document content
- **Calendar** with invitations and confirmations and recurring events (schedules)
- **Forms** with very advanced management module to create workflows
- **Content** with comment and review options, notification by e-mail and push message, follow / unfollow, like and read confirmation
- **Internal messaging system** with team chat, personal chat and notification for unread messages
- **Newsletters and digests** (automatic activity report per day / week / month via e-mail)
- **Contact list** with profile and passphoto, also via firewall directly in the smartphone app
- **Widgets** such as "Latest contributions", "News from my teams", "On the agenda", "Birthdays"
- **Timeline view** with filter options and scrolling to the past and future.
- API module for 3rd party systems integration, including social networks like Google, FB, Twitter.
- **Links** with existing and new (customized) web apps via **Single Sign On**

# Social Intranet with Knowledgebase and App

Improve employee empowerment and professionalism, encourage engagement and interaction, reduce email usage, and provide tailored information and tools that make work more efficient and enjoyable.

# Knowledgebase linked to Academy with e-learning via mobile app

The screenshot shows the INNOVATE web portal. The top navigation bar includes links for Medewerkers, Gebruikerslijst, Academie, Kennis, and Locaties. The main content area is divided into two sections: Kennisbank and Academie. The Kennisbank section features a 'Laatste nieuws' (Latest news) section with a post about 'Toolbox Fysieke belasting' (Physical load toolbox) dated 01-02-2022. The Academie section features three cards: 'Toolbox Fysieke belasting', 'VCA kennis toets' (VCA knowledge test), and 'Verplichte cursus AVG' (Mandatory AVG course). Each card has a 'LEES MEER' (Read more) link.

**Toolbox Fysieke belasting**

De toolbox Lichamelijke belasting bevat info over: Vormen van lichamelijke belasting. Tips om belasting te verminderen.

[LEES MEER](#)

**VCA kennis toets**

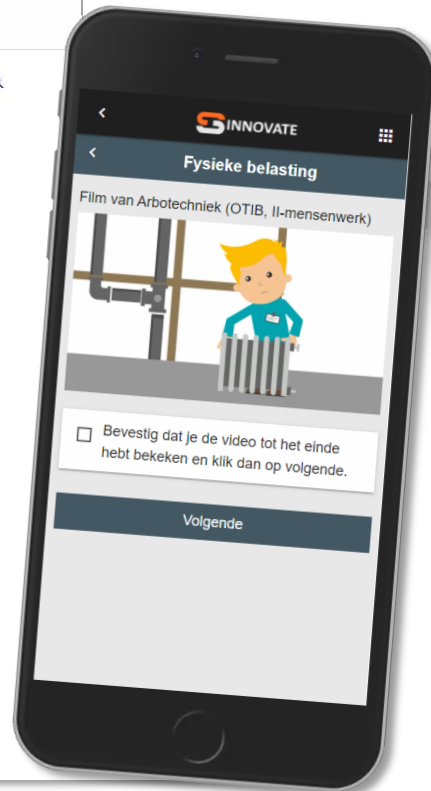

Binnenkort is hier beschikbaar een zelftoets ter voorbereiding op je VCA certificering.

[LEES MEER](#)

**Verplichte cursus AVG**

Na deze toets weet je of je voldoende op de hoogte bent van de Europese privacy wetgeving, in Nederland wel bekend onder de afkorting AVG.

# SLA and Volume Related Prices

 **Rates** going down to just **€1 per user per year!**

 **Response Time** for support and incidents: office hours within 4 hours, usually immediately

 **Standby support** based on time strip card on demand and time accounting afterwards

 **No licence fees**, but a transparent method of cost calculation related to the intensity of use.
